

Amendments to the Specification:

Please replace the paragraph beginning at page 6, line 11 with the following rewritten paragraph:

the arcuate section provided to the main cartridge body unit is formed on an inserting side of the main cartridge body unit into a recording and/or reproducing apparatus. Moreover, the back side of the main cartridge body unit opposite to the inserting end thereof formed as the arcuate section is a curved section having a curvature ~~larger~~smaller than that of the arcuate section.
